

## Biscuit Fire Post-Fire Assessment

Rapid Assessment of Post-Fire Road  
Erosion and Development of Sediment Control Opportunities, Biscuit Fire  
Area, Southern Oregon  
Conducted a reconnaissance-level,  
rapid field inventory of erosion sources, and developed restoration  
options, for over 130 miles of forest roads in 6 key watersheds in burn  
areas of the Biscuit Fire, southern Oregon. (Pacific Rivers Council,  
Eugene, Oregon.)
